

SHREE ALLIED SERVICES
BEYOND SUPPLY. INTO SOLUTIONS.

EXPERIENCE ACROSS ENVIRONMENTS.
SUPPLY ACROSS REQUIREMENTS

SHREE ALLIED SERVICES PRIVATE LIMITED

BEYOND SUPPLY. INTO SOLUTIONS.

Procurement & Supply | IT Infrastructure | Data Centres | Hospitality | Facilities | Safety | Engineering | Corporate Gifting

WE KNOW THE WORK BEHIND THE REQUIREMENT.

Our team has worked across IT infrastructure and technology environments, hospitality, facility operations and critical infrastructure requirements. That experience shapes how we approach supply: understand what the team is doing, what the site requires and what needs to reach it.

We work across requirements rather than limiting ourselves to a single product category.

Our broader scope is designed around one procurement objective:

Bring more of the requirement together, without compromising on the specification.

UNDERSTAND THE REQUIREMENT.
SOURCE RESPONSIBLY.
COORDINATE THE SUPPLY.

EXPERIENCE ACROSS DIFFERENT ENVIRONMENTS.

01 IT & TECHNOLOGY

Infrastructure requirements, connectivity, workplace technology and technical supplies.

02 DATA CENTRES

Cleaning, PPE, facility operations, engineering requirements and infrastructure support.

03 HOSPITALITY

Housekeeping, hygiene, workplace operations, guest-facing supplies and recurring procurement.

04 FACILITIES

Tools, MRO, consumables, safety equipment and site requirements

05 PROJECT & SITE

Specification-led sourcing across electrical, infrastructure, civil, flooring and associated requirements

06 CORPORATE

Workplace supplies, facility requirements, safety, maintenance and recurring procurement.

Different environments ask for different products. The common thread is understanding the requiremnt before arranging the supply.

NOT JUST A VENDOR. A SUPPLY PARTNER.

01 REQUIREMENT FIRST

We begin with what you actually need not what we want to sell.

02 CATEGORY DEPTH

Our supply scope extends across infrastructure, facilities, safety, engineering, workplace and recurring operational requirements.

03 SPECIFICATION AWARE

Where a requirement is brand-, specification or project-driven, sourcing follows the actual requirement.

04 COORDINATED SOURCING

Multiple categories can be brought into a coordinated supply relationship where the scope allows.

05 RECURRING PROCUREMENT

The focus isn't only on one-time orders. Recurring facility, housekeeping, PPE and MRO requirements can be structured around ongoing supply needs.

06 PROJECT SOURCING

For larger or specialised requirements, sourcing is undertaken against the BOQ, specification and applicable approval requirements.

WORKPLACE & IT SUPPLY

From everyday stationery and printing requirements to laptops, monitors and workplace equipment, SHREE supplies the products that keep offices and institutional environments functional.
We can source individual requirements as well as larger workplace setups, based on the required specification, quantity and deployment need.

IT & TECHNOLOGY

Laptops, Desktops, Keyboards, Mouse, Webcams, Printers, Scanners, Cartridges and networking requirements.

OFFICE & WORKPLACE

Stationary, paper, Files, Pantry support, Workstations, Whiteboards and other accessories.

DATA CENTRES

Data centres depend on more than racks, power and cooling. They also require the right support across cleaning, PPE, facility operations, engineering requirements and infrastructure support.

- ***Critical Infrastructure*** – Racks, cabinets, PDUs, containment, cable management
- ***Power & Continuity*** – UPS, batteries, distribution, switchgear, STS / ATS
- ***Cooling & Environment*** – CRAC/CRAH, precision cooling, HVAC, filters, pumps
- ***Facility & Engineering support*** – Cleaning, PPE, maintenance, MRO and operational supplies

HOSPITALITY

Housekeeping, hygiene, maintenance, safety and back-of-house teams all rely on a steady flow of everyday supplies. Our experience across operational environments helps us support these requirements without treating each category as a separate procurement exercise.

HOUSEKEEPING & HYGIENE

Cleaning and hygiene requirements for guest-facing and back-of-house areas, including everyday consumables and professional housekeeping equipment

MAINTENANCE & ENGINEERING

Routine tools, electrical and plumbing requirements, maintenance consumables and replacement materials that support day-to-day operations.

EVERYDAY OPERATIONS

Pantry, workplace and general facility supplies that form part of recurring property requirements.

FACILITY MANAGEMENT

Facility teams manage a constant mix of planned requirements, routine replenishment and unexpected needs.
That can mean housekeeping supplies today, a maintenance requirement tomorrow, and plumbing, PPE or engineering consumables the next.
SHREE supports these recurring requirements through a broader, coordinated supply approach.

OPERATIONS
Housekeeping, hygiene, sanitation and the everyday consumables required across managed facilities.

MAINTENANCE
Engineering consumables, plumbing requirements, tools and MRO supplies for routine upkeep and repair.

WORKPLACE
Office, pantry and general supplies that support the people using and managing the facility

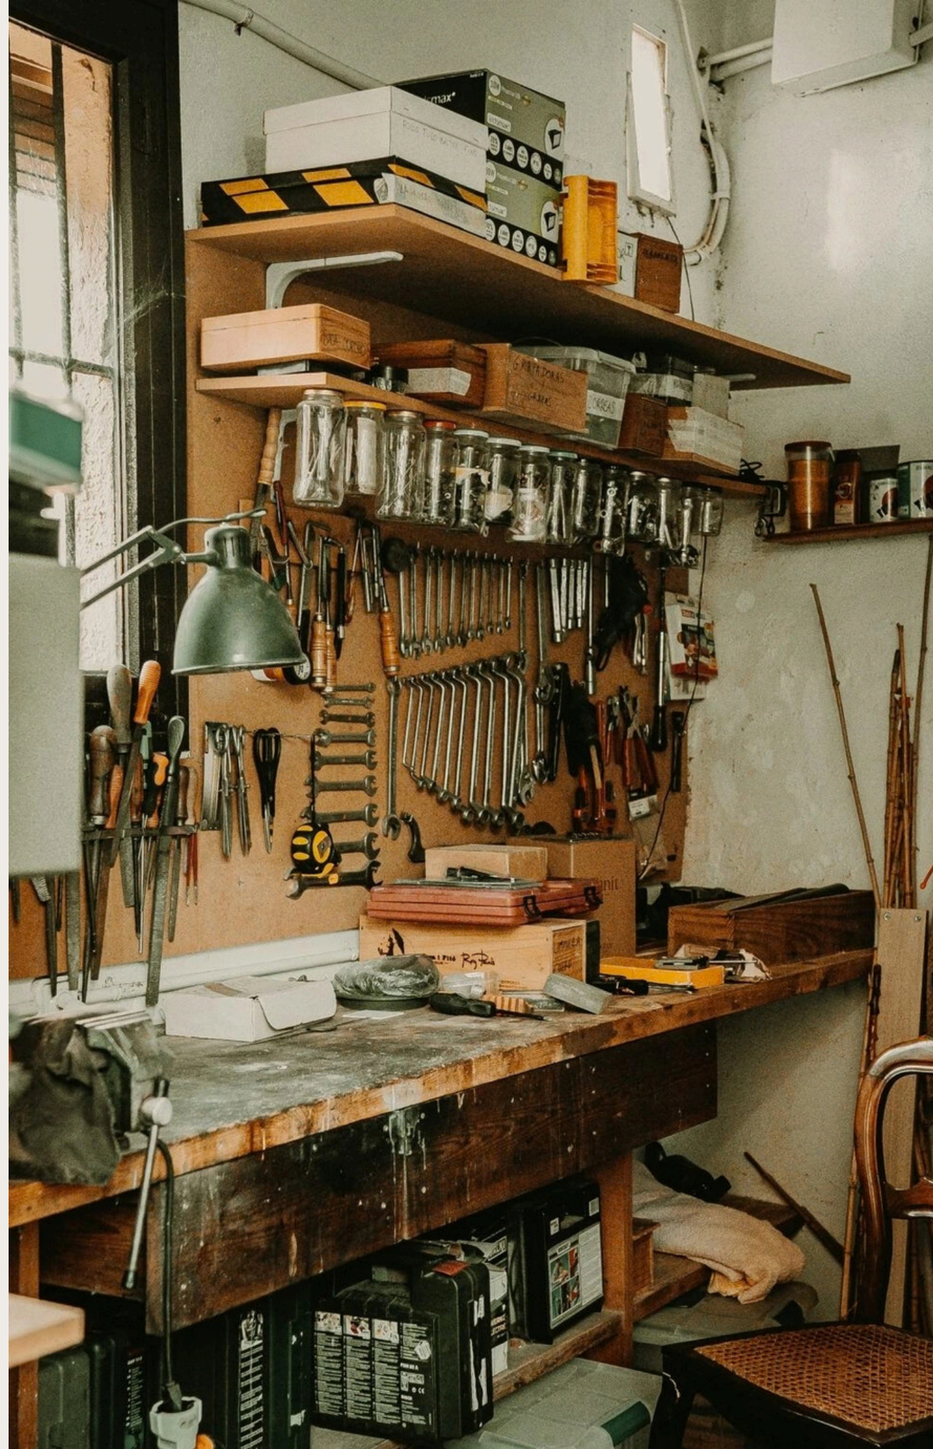
ENGINEERING, TOOLS & MRO

TOOLS
Hand and tool kits
Power / cordless tools
Torque wrenches
Cable cutting & crimping

TEST & MEASUREMENT
Multimeters / clamp meters
Insulation testers
Thermal imaging cameras
Electrical test instruments

ACCESS & SITE
Ladders / scaffolding
Cable-trench covers
Site accessories
Access / installation support

ON REQUEST / AS SPECIFIED
Routine maintenance consumables can be consolidated with recurring facility requirements where the scope supports it.



SAFETY & PPE

The right safety equipment depends on the person, the task and the environment.
SHREE supplies PPE and safety requirements for facility, project and industrial environments with selection guided by the application, site requirement and applicable specifications.

RESPIRATORY
Respirators • Masks

FALL PROTECTION
Full-body harnesses • Fall-protection equipment

CONTROL & EMERGENCY
LOTO kits • Safety signage Barricades • First-aid • Emergency rescue equipment

HEAD & FACE
Safety helmets • Goggles • Face shields

FOOT PROTECTION
Safety shoes • Gumboots • Site footwear

HAND & BODY
Industrial gloves •Cut-resistant & electrical-insulation gloves • Reflective wear

A GIFT CAN SAY MORE THAN “THANK YOU.”

ANUSHTHANAM

A curated corporate gifting offering for organisations that want their festive and relationship gifting to feel considered

EMPLOYEES

Festivals, milestones, appreciation and onboarding.

CLIENTS & PARTNERS

Relationship gifting, festive occasions and curated hampers.

CORPORATE EVENTS

Celebrations, special occasions and customised gifting.

From selection and presentation to quantity and budget, gifting can be curated around the organisation and the occasion.

HOW WE WORK

REQUIREMENT → UNDERSTANDING → SOURCING → SUPPLY

1. YOU TELL US WHAT YOU NEED.

A BOQ, procurement list, specification, recurring requirement or project requirement.

2. WE UNDERSTAND THE SCOPE.

What is standard? What is specification-driven? What needs a particular brand, document or approval?

3. WE SOURCE AROUND IT.

We identify suitable supply channels and build the quotation around the requirement.

4. WE KEEP THE ORDER MOVING.

Once aligned, we coordinate the order and delivery.

Have a requirement to source?

From recurring facility supplies to technical, project and institutional procurement, share your requirement with us. We'll understand the scope and work around the appropriate sourcing route.
